

# **Meet in the Middle** Utah CPS Mentoring Program

**Do you love being a Child Passenger Safety Technician?**

**Are you willing to share your passion, experience, and knowledge with a new technician?**

**Become a CPS Mentor!**

---

*Our program is called Meet in the Middle because we want to encourage the Mentor and the new CPS Technician to work together and equally make efforts. As a result, they will Meet in the Middle.*

---

Here are some ideas of what you can do to be an effective CPS Mentor:

- Send an email within a week of their class and every month to check in.
- Be available and open to answer questions.
- Pass on resources or helpful websites.
- Encourage and compliment them!
- Invite them to any checkpoints or events in your area.
- Forward any CPS information that comes to you.
- Talk to them about the re-certification process.
- Let them know about webinars or other CEU opportunities
- As a CPS Mentor, just BE A FRIEND.

Tell me and I forget, teach me and I may remember, involve me and I learn ... I am not a teacher, but an awakener.” — Robert Frost
