Nanette Schieke
Chief, Driver Safety
Maryland Department of Transportation
nschieke@mdot.state.md.us
OBJECTIVES

• Goals and guidelines of medically at-risk driver programs
• Key Partners / Stakeholders
• State Collaboration Experiences: MD, FL, and GA
• Discuss real world examples of program implementation
What is NHTSA Program Guideline No. 13?

• A guideline from NHTSA for developing and implementing a comprehensive older driver safety program.

• It provides key components of a State older driver safety program, and criteria that the program components should meet.
NHTSA PROGRAM GUIDELINE NO. 13

• Program Management
  • Each state must provide centralized planning, implementation, and coordination

• Roadway Design
  • The needs of older drivers must be considered in both new construction and spot improvements.

• Driver Licensing
  • DMVs must implement policies, practices, and communication with the goal of monitoring fitness to drive.

• Medical Providers
  • Medical providers should identify, counsel, and refer at-risk older drivers.
NHTSA PROGRAM GUIDELINE NO. 13

• Law Enforcement
  • Identify on the street and refer at-risk drivers.

• Social and Aging Service Providers
  • Provide support and information for aging drivers transitioning away from driving.

• Communication Programs
  • Develop communication strategies for high risk populations

• Program Evaluations and Data
  • Implement effective record keeping and analyses of data and programs.
KEY PARTNERS / STAKEHOLDERS

• Law Enforcement
• Medical Providers / Healthcare Professionals
• Social and Aging Services Providers
• Driver Licensing Agencies
• Departments of Transportation
• Traffic Safety and Highway Design Engineers

Maryland
APPROACH FROM ALL ANGLES
ENGAGE STAKEHOLDERS
EMPOWER PEOPLE TO TAKE OWNERSHIP

It's empowering people to use the resources they have to solve their own problems with a little education.

John Borland
LEVERAGE THE STRENGTH OF OTHERS AND ALL RESOURCES
BE THERE FOR YOUR PARTNERS
