CPSTs encourage healthcare providers to join the CPS-in-Healthcare ListServ

…where healthcare providers meet with Child Passenger Safety Technicians to share knowledge and information to keep children safe in vehicles. Our emphasis is on child passenger safety (cps) practices within the health care setting.

This is a simple way for non-CPST healthcare practitioners to communicate online with CPSTs who also practice within healthcare settings across the country. CPS-in-Healthcare List aims to generate discussion to support and improve CPS education and support in healthcare settings for families and professionals.
