MVJH FCCLA
Washington D.C. - Information, Training, Planning

Where it all started.......
Seat Belt Check - November 16, 2017
Seat Belt Check Results - November 16, 2017

31.8% not wearing seatbelt

Not good results….our goal is to get this number down!
Committee reaches out to community for sponsors and partnerships.

Expressway Chevrolet was a big help to us in our campaign. They promoted our campaign and had car buyers sign pledges.
We put out about 100 signs!!!!
Not buckling up doesn't harm only you. If you get into a crash it will affect your friends and loved ones; so think of the consequences.

**BUCKLE UP!**
If you get into a crash and you’re wearing a seatbelt; you have a 50% better chance to survive rather than not being buckled up.

**IT DOESN'T TAKE LONG**
It takes less than 2 seconds to buckle up; it’s worth it.

**SEATBELT SAFETY**

**IT ONLY TAKES ONE TIME**
It only takes one time without buckling up. If you choose to not buckle up one time; it could also be the one time you get into a crash.

**EVERYONE BUCKLED UP?**
If you ever have kids or a passenger riding in your vehicle always ask this question. Whenever it comes to kids in your vehicle it can be hard for them to remember to buckle up. So please ask them this question every time your in a vehicle even if you think that they are in a habit, and remind them the importance of wearing their seatbelt.

**BUCKLE UP NO MATTER THE DISTANCE**
Many people believe that if you're not driving far then you don't need to wear a seatbelt. Did you know that most crashes happen in under than 25 miles from your home? Choose to buckle up no matter what the distance is, even if it's just a short drive. Remember, nobody plans for an accident to occur; it can happen at any given time.

**IT'S THE LAW!**
Buckling up isn't just a choice you should make, but it's a choice you need to make. Buckling up is a law in Indiana, therefore you need to obey it. If you get caught without wearing a seatbelt a fine can be between $25 all the way to $140 in the state of Indiana.

**SEATBELT STATS**
- Every 11 minutes someone dies in a wreck
- Every 18 seconds someone gets injured in a wreck
- Not wearing a seatbelt gives you a 30% chance of getting ejected from your vehicle.
- seatbelts saved 13,941 lives in 2015.
- Airbags will not save you, they are designed to work with seatbelts, not to replace them.
- Buckling up is the most effective thing you can do.

Seat Belt Selfie Contest kick-off!
January - February, 2018
Morning Greeters in February

100% Wearing seatbelt today!

Dr. Kopatich, our superintendent greeted students today!

2-2-18
Three students at our school record videos for youtube. They showed great support for our cause by featuring seatbelt selfies and reminding students to buckle up. They also greeted students on mornings we need greeters.

https://youtu.be/immlEcDoMlg
Thanks to Indiana State Officer Seth Rainey for greeting students this morning. Unfortunately, he caught one student that was not buckled up; the seatbelt was taken off prior to coming to a complete stop.
Random hallway bracelet checks....students are rewarded for wearing their bracelets!
Games- scavenger hunt, relay races, & musical chairs
Our February dance featured the logo on their dance ticket. Local deputies volunteered their time to come to the dance, greet students, check for seatbelts and help supervise the dance!
High School Homecoming Festival

January 26, 2017; we had a table at the high school homecoming festival. We handed out information brochures, bracelets, had the video playing and had people sign pledges.
Our school corporation were big supporters!
Our community was great! Our campaign was everywhere!
Everywhere you went in February…
There were reminders!
Table at Wrestling Meet

This got the word out, not to just our school, but the opposing teams, too. (A dual meet!!)
Wrestling Meet - Presentation and notes on cars!
Kings & Queens 4H Club Presentation
Girl Scout Troop 135
Our members wore several bracelets each day. They were to meet new people and spread the word of seat belt safety. We gave away lots of bracelets! State officers and vendors were wearing the bracelets!
Indiana FCCLA State Conference - March 8-10, 2018

Workshop Presentation
Indiana FCCLA State Conference - March 8-10, 2018
7.8% not wearing seatbelt

So much better than November; this is 24% improvement. We plan to continue to remind our peers and community of seat belt safety. We want to be able to do a check and have 100% wearing a seat belt!
Kara’s teenage brother was in a very bad accident.

His truck was totalled, but luckily he was wearing his seat belt and was not injured!
