Daniel Hansbury,
Adventure Cycling Association

Daniel Hansbury is the Safety Program Coordinator at Adventure Cycling Association. In this role, Daniel works with national, state, and local groups to pass legislation and infrastructure improvements that improve cycling safety across the country. He also oversees Adventure Cycling’s Route Conditions Mapping Tool project, a GIS-based tool to visualize and analyze roadway and traffic data to help state departments of transportation prioritize infrastructure improvements, as well as allow Adventure Cycling to manage their 50,000+ miles of mapped cycling routes.
