

Lifesavers National Conference on Highway Safety Priorities Exhibitors *(as of 3/10/22)*

AAA Inc.

Booth No: 715

Visit the Website: AAA.com

As North America's largest motoring and leisure travel organization, AAA provides more than 63 million members with travel, insurance, financial and automotive-related services. Since its founding in 1902, the not-for-profit, fully tax-paying AAA has been a leader and advocate for the safety and security of all travelers. Motorists can map a route, identify gas prices, find discounts, book a hotel and access AAA roadside assistance with the AAA Mobile app for iPhone, iPad and Android. Learn more at AAA.com/mobile. Find more information on AAA clubs at AAA.com.

Abbott

Booth No: 905

Visit the Website: abbott.com

The SoToxa™ Mobile Test System is a portable oral fluid drug testing analyzer designed to meet the high-performance demands of law enforcement agencies. With a 6-panel test cartridge and an oral fluid collection swab, the SoToxa™ system performs the drug screening, and interprets the test results - all on location. It offers the optimal combination of portability, speed, ease of use, reliability, and accuracy - empowering officers to take action at the roadside with immediate test results. Rapid drug screening for safer roads. Help keep communities safe with actionable tools to better protect against drugged driving.

ACCESS

Visit the Website: Alliancehighwaysafety.com

Alliance Highway Safety is an agency specializing in outreach and engagement opportunities.

American Association of Motor Vehicle Administrators (AAMVA)

Booth No: 204

Visit the Website: <https://www.aamva.org/>

The American Association of Motor Vehicle Administrators (AAMVA) is a tax-exempt, nonprofit organization developing model programs in motor vehicle administration, law enforcement and highway safety. The association also serves as an information clearinghouse in these areas, and acts as the international spokesman for these interests. Founded in 1933, AAMVA represents the state, provincial, and territorial officials in the United States and Canada who administer and enforce motor vehicle laws. AAMVA's programs encourage uniformity and reciprocity among the states and provinces. The association also serves as a liaison with other levels of government and the private sector. Its development and research activities provide guidelines for more effective public service. AAMVA's membership includes associations, organizations and businesses that share an interest in the association's goals. AAMVA has four regions incorporated under its umbrella.

American Trucking Associations' Share the Road

Booth No: 506

Visit the Website: trucking.org/share-road

Share the Road is a highway safety program of the American Trucking Associations (ATA). Million-mile accident free professional truck drivers deliver specific life-saving safety tips to the public, the media, and our public officials through television, radio, the web and in print.

Buckle Up for Life

Draeger US Interlock, LLC

Booth No: 508

Visit the Website: draegerinterlock.com

Interlock

Draeger, Inc.

Booth No: 919

Visit the Website: draeger.com/en-us_us/Safety/Law-Enforcement-Solutions

Since 1889, Dräger's products have protected, supported and saved lives. We continue this legacy by providing tools that help law enforcement agencies gain clarity in challenging impaired driving investigations. We are world leaders in the field of alcohol testing with most police forces in the world using Dräger alcohol breathalyzer, evidential alcohol tester and drug testing devices. Two previous studies that tested oral fluid testing devices were used to determine the scope of testing and cutoff concentrations for NHTSA's evaluation. "The Roadside Testing Assessment" (ROSITA), that recommends greater than 90 percent sensitivity and specificity, and greater than 95 percent accuracy, and the "Driving Under the Influence of Drugs, Alcohol and Medicines" (DRUID) project, that recommends greater than 80 percent sensitivity, specificity and accuracy. Dräger's DDT5000 and the DDC3000 were the only devices that met the performance requirements of both ROSITA and DRUID.

ELTEC

Booth No: 504

Visit the Website: elteccorp.com

ELTEC is a world class provider of engineered traffic systems and solar powered solutions with an emphasis on programmable timing products and pedestrian safety. ELTEC is sought out for exceptional quality, delivery, service, and customer support.

Emergency Safety Solutions

Booth No: 605

Visit the Website: ess-help.com

When you're stranded on the side of the road, your hazard lights won't protect you. They were invented in the early 1950s and haven't been innovated on since. Emergency Safety Solutions new H.E.L.P. system revolutionizes passenger vehicle hazard warning systems with vastly enhanced emergency lighting coupled with GPS traffic alerts for oncoming drivers to help them safely avoid disabled vehicles and their occupants. Stop by our booth for a live demo! Emergency Safety Solutions is working to eliminate disabled vehicle crashes with our new intelligent emergency communications feature: Hazard Enhanced Location Protocol (H.E.L.P.™). H.E.L.P. makes disabled vehicles more visible with highly conspicuous emergency lighting & digital alerts sent to oncoming vehicles via GPS mapping apps.

Visit the Website: fatalvision.com

Innocorp, Ltd., maker of the Fatal Vision® Impairment Simulation Goggles, and other innovative, hands-on, engaging, awareness building tools used to help you deliver effective traffic safety and prevention initiatives. Law Enforcement agencies and safety professionals in more than 100 countries around the world use Fatal Vision products to demonstrate the dangers of impairment from alcohol, marijuana, opioids, and drowsy & distracted driving.

Intoxalock

Booth No: 713

Visit the Website: intoxalock.com

Intoxalock is a national leading provider of ignition interlock devices. Ignition interlocks are often installed in a vehicle following a drunk driving offense and have proven to be extremely effective in preventing offenses. In addition, states with strict ignition interlock laws have seen a drastic decrease in the number of alcohol related traffic fatalities. Intoxalock devices are reliable and easy to use. With twice as many installation locations as any other interlock provider, Intoxalock makes the process as quick and painless as possible for the customer. We recognize that a drunk driving offense is stressful and overwhelming. Our representatives are available 24/7 to help each customer through the process and are there every step of the way.

Kids And Car Safety

Booth No: 500

Visit the Website: kidsandcars.org

Kids and Car Safety, (KACS) a 501 (c)(3) national nonprofit organization is dedicated to saving the lives of children and pets in and around motor vehicles. KACS is devoted to eliminating vehicle-related risks through data collection, research and analysis, public education programs, policy change, product redesign and helping grieving families channel their grief into positive change. The organization has in-depth knowledge about “nontraffic incidents” which includes being run over in parking lots or driveways, hot car deaths, carbon monoxide poisoning, car theft with children/pets inside, falls, knocking cars into gear, drowning from not being able to exit a submerged vehicle, underage drivers, power window strangulation, trunk entrapment, etc. Kids and Car Safety remains the only organization maintaining a national database on all nontraffic fatalities, injuries and close calls. As a result of their 25 years of nontraffic data collection, research and analysis, the organization has been very successful in reducing injuries and deaths. Examples of their major successes include improved standard safety features in all new vehicles including rearview cameras, trunk releases, safer power window switches, and brake transmission shift interlock. New safety features to be added to vehicles soon include rear seat belt reminders, technology to prevent hot car tragedies, automatic engine shut off to prevent carbon monoxide poisoning and automatic emergency braking (AEB).

KidsEmbrace LLC

Booth No: 308

Visit the Website: kidsembrace.com

KidsEmbrace is so much more than a product company. Kidsembrace has changed the way consumers discover and use child car seats. Kidsembrace makes safety fun with a character car seat for everyone, but safety is always the number one priority for Kidsembrace.

National Center for DWI Courts

Booth No: 1009

Visit the Website: dwicourts.org

Impaired driving is recognized as one of the biggest threats to public safety in the United States. The National Center for DWI Courts (NCDC) is dedicated to reducing impaired-driving recidivism nationwide by addressing the root problem: addiction. We partner with federal agencies and corporate sponsors to provide cutting-edge training and technical assistance to communities to implement, expand, and improve DWI court programs that provide treatment and accountability based on research-driven best practices. We are dedicated to expanding DWI courts to serve everyone in need and to make our communities safer each and every day. Established in 2007, NCDC is a division of the National Association of Drug Court Professionals, a 501(c)3 non-profit organization based in Alexandria, Virginia.

National Highway Traffic Safety Administration

Booth No: 1023

Visit the Website: nhtsa.gov

Promotional and educational materials that focus on reduce traffic and vehicle related deaths and injuries nationwide. Program areas include: impaired driving, occupant protection, emergency medical services, justice services, safety countermeasures, distracted driving and behavior and applied research.

National Law Enforcement Officers Memorial Fund

Booth No: 304

Visit the Website: Nleomf.org

About the National Law Enforcement Officers Memorial Fund (NLEOMF) Founded in 1984, the National Law Enforcement Officers Memorial Fund is dedicated to telling the story of American Law Enforcement and making it safer for those who serve. A nonprofit 501(c)(3) organization headquartered in Washington, DC, the Memorial Fund built and continues to maintain the National Law Enforcement Officers Memorial - the nation's monument to law enforcement officers killed in the line of duty. The Memorial Fund is a principal organizer of the annual National Police Week observance every May and hosts a Candlelight Vigil each May 13th to honor all fallen officers. In addition, the Memorial Fund maintains the largest, most comprehensive database of line-of-duty officer deaths, conducts research into officer fatality trends and issues, and serves as an information clearinghouse.

National Safety Council

Booth No: 512

Visit the Website: nsc.org/road

Save lives, from the workplace to anyplace. The National Safety Council is America's leading nonprofit safety advocate. We focus on eliminating the leading causes of preventable injuries and deaths. One of NSC's primary practice areas focuses on safety on the road. Learn more about the NSC Roadway Safety initiatives at www.nsc.org/road. At this exhibit booth, information will be available about programs such as Check To Protect (vehicle recalls), Child Passenger Safety, including the National Child Passenger Safety Board, the National Digital Car Seat Check Form, and Pediatric Vehicular Heatstroke. Come learn more about DriveitHome (teen driving support for parents), and Our Driving Concern and DITTE programs for Employer Traffic Safety resources in partnership with TXDOT. There will also be information about the Road To Zero Coalition, Defensive Driver Courses, and additional Driver Safety resources.

The Foundation for Advancing Alcohol Responsibility (Responsibility.org) leads the fight to eliminate drunk driving and underage drinking and promotes responsible decision-making regarding beverage alcohol.

Roadway Safety Foundation

Booth No: 306

Visit the Website: roadwaysafety.org

The Roadway Safety Foundation is a 501(c)(3) nonprofit educational and charitable organization chartered in 1995 by the American Highway Users Alliance. The Foundation's predecessor organization, the Automotive Safety Foundation, dates back to 1937 when it was created by automobile and allied industries to coordinate highway safety activities and place the industry effort on a permanent basis. Later in 1966 The Highway Safety Act of 1966 established the National Highway Program Safety Standards, laying the groundwork for federal-state-private sector partnership in traffic crash reduction. Since then, RSF has worked with private- and public-sector safety partners to reduce fatalities and serious injuries attributed to roadway conditions.

SADD & RADD

Booth No: 208

Visit the Website: sadd.org

SADD is the nation's premier student health and safety organization with over 7,500 chapters in middle schools, high schools, and colleges, using a peer-to-peer prevention message. RADD is the entertainment industry's voice on roadway safety. Come and learn about how RADD and SADD are teaming-up to end traffic crashes among college students.

Safe Kids Worldwide/General Motors

Booth No: 911

Visit the Website: safekids.org

Safe Kids Worldwide is a nonprofit organization working to protect kids from preventable injuries, the number one cause of death for children in the United States. We work with an extensive network of more than 400 coalitions in the U.S. and with partners in 30 countries to keep kids safe at home, on the road and at play. We partner with General Motors to protect kids in and around cars through the Safe Kids Buckle Up program (SKBU). Since its inception in 1997, the SKBU program has grown into the most comprehensive CPS program in the world. Thanks to the support of GM, we have reached more than 29 million families and distributed more than 784,000 car seats to families in need. Our efforts also include programs in other critical areas such as bike safety, pedestrian safety and rail safety. During COVID-19, these programs have evolved to provide life-saving resources and virtual and online education to families, no matter where they live.

ThinkFirst National Injury Prevention Foundation

Booth No: 419

Visit the Website: thinkfirst.org

ThinkFirst's Mission is to prevent brain, spinal cord and other traumatic injuries through education, research and advocacy. Traumatic Injury is a leading cause of death and disability among children, teens and adults. Frequent causes are vehicle crashes, violence, falls and sports. Simple actions can greatly reduce our risk for injury, such as wearing a seat belt, driving safe, sober, and without distractions, wearing bike and sports helmets and other safety precautions. ThinkFirst serves the public by developing and distributing effective injury prevention educational materials, provides training and technical support to chapters, markets the mission and programs of ThinkFirst on a national and global level and supports injury prevention-related research and public policy initiatives. ThinkFirst offers educational programs throughout the entire lifespan for members to use to support injury prevention education at their organization.

Transportation Professional Certification Board, Inc.

Booth No: 403

Visit the Website: tpcb.org

With more than 40,000 lives lost annually on highways in the United States and Canada and the growing attention on improving public safety through initiatives such as Toward Zero Deaths, Vision Zero, and the Road to Zero, the RSP represents an important step forward for the safety profession. The RSP certification provides for professionals involved in a wide array of safety-related disciplines to establish their competency in providing for the safety of the traveling public.

Tribal Injury Prevention Resource Center

Booth No: 401

Visit the Website: thetiprc.com

Tribal Injury Prevention Resource Center (TIPRC). This program serves all American Indian/Alaska Native tribal and urban communities across the country. The TIPRC mission is to provide technical assistance and training to promote the implementation of evidence-based best practices in motor vehicle safety throughout Indian Country with the goal of reducing injuries and fatalities associated with motor vehicle crashes.

TTI - Youth Transportation Safety Program

Booth No: 318

Visit the Website: t-driver.com

TTI's Youth Transportation Safety (YTS) Program seeks to save lives and prevent injury among youth through education, empowerment, and peer-led outreach. Our vision is to ensure that America's youth live long and healthy lives through safe practices on our transportation system. Current YTS initiatives include the grassroots, peer-to-peer outreach programs: Teens in the Driver Seat - helping high school drivers form lifelong, safe driving habits while still gaining experience with the basics of being behind the wheel, Teens in the Driver Seat Junior High - targeting middle school students beginning to learn driving behaviors to become safety advocates as passengers, and U in the Driver Seat - helping college-aged drivers learn to balance living on their own with managing life's distractions, which can lead to driving risks like impaired driving, lack of seat belt use, and speeding.

TX Department of Transportation
