

Traffic Safety Initiatives Video Series

The [*Traffic Safety Initiatives Video Series*](#) was produced by the IACP, in collaboration with the National Highway Traffic Safety Administration (NHTSA), and consists of five videos that highlight police agencies across the country. Each segment provides an overview of an agency's innovative approach to addressing traffic safety through the engagement with community members. These efforts can be replicated by other agencies and improve the overall quality of life in communities.

Safer Roads, Stronger Communities Resource

The [*Safer Roads, Stronger Communities Resource*](#) is an e-publication the IACP, and the National Highway Traffic Safety Administration (NHTSA) created to illustrate the benefits of traffic safety and to help law enforcement agencies do the same. Traffic safety is a compelling opportunity to create positive and meaningful impact. Traffic safety saves lives, makes communities more livable, strengthens police-community relations.

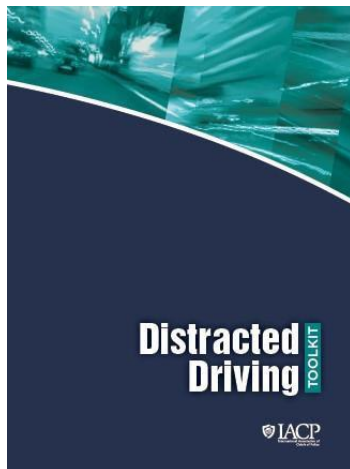

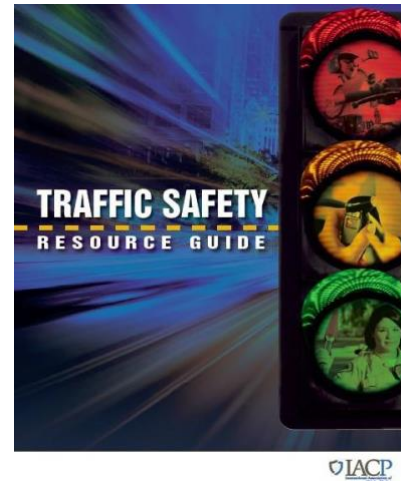

Safe, Quick Clearance of Traffic Incidents Toolkit

The [*Safe, Quick Clearance of Traffic Incidents Toolkit*](#) provides law enforcement executives with information that demonstrates the importance of adopting practices that facilitate the safe, quick clearance of traffic incidents in order to increase responder and public safety; reduce traffic congestion and the risk of secondary crashes; and improve the overall quality of life in communities.

Traffic Safety Resource Guide

The [Traffic Safety Resource Guide](#) is an e-publication designed to help law enforcement officers address the elements of traffic safety from education to enforcement, as well as to share research and best practices. The guide provides promising practices to support leaders in responding to the traffic safety issues they are encountering in their communities.

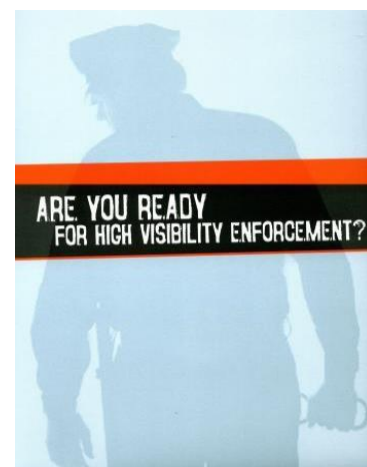

Distracted Driving Toolkit

The [Distracted Driving Toolkit](#) provides law enforcement chief executives, command staff, first-line supervisors, and patrol officers with effective strategies that have been used by others to improve distracted driving education and enforcement in their communities, along with tactics to reduce officer distraction in patrol vehicles.

High-Visibility Education and Enforcement Toolkit

As part of a continued focus on enhancing traffic safety and reducing fatal crashes nationwide, the IACP, the National Highway Traffic Safety Administration (NHTSA), the Governors Highway Safety Association, and other partners created the [High-Visibility Education and Enforcement \(HVEE\) Toolkit](#) which focuses on outlining the promising practices and lessons learned from each state that participated in the HVEE pilot project.
