

Lifesavers National Conference on Highway Safety Priorities Exhibitors *(as of 3/29/23)*

AAA, Inc. Partner Sponsor

Booth No: 600

Visit the Website: www.AAA.com

As North America's largest motoring and leisure travel organization, AAA provides more than 63 million members with travel, insurance, financial and automotive-related services. Since its founding in 1902, the not-for-profit, fully tax-paying AAA has been a leader and advocate for the safety and security of all travelers. Motorists can map a route, identify gas prices, find discounts, book a hotel and access AAA roadside assistance with the AAA Mobile app for iPhone, iPad and Android. Learn more at AAA.com/mobile. Find more information on AAA clubs at AAA.com.

AASHTOWare Safety / Numetric

Booth No: 108

Visit the Website: www.numetric.com

Numetric, Inc., the exclusive Traffic Safety Analytics solution provider for AASHTOWare, is dedicated to partnering with organizations to provide solutions that unlock the power of data to help domain experts make informed decisions, improve community safety, and eliminate roadway fatalities. We are committed to ensuring our partner agencies receive the highest quality products and support to help them make their roadways safer. Founded by transportation engineers in 2014, Numetric is dedicated to providing crash reporting, and roadway safety management software to unlock crash data, and solve the most pressing traffic safety challenges. The Numetric Traffic Safety Analytics Platform and suite of applications make the most time-consuming tasks - like querying data, building reports, running safety analyses, or sharing reports - lightning-fast and more accurate. Currently, Numetric has partnered with 11 state agencies across the United States to help engineers, law enforcement, and others.

Abbott/Intoximeters

Booth No: 601-603-700-702

Visit the Website: www.abbott.com/roadside

The SoToxa™ Mobile Test System is a portable oral fluid drug testing analyzer designed to meet the high-performance demands of law enforcement agencies. With a 6-panel test cartridge and an oral fluid collection swab, the SoToxa™ system performs the drug screening, and interprets the test results - all on location. It offers the optimal combination of portability, speed, ease of use, reliability, and accuracy - empowering officers to take action at the roadside with immediate test results. Rapid drug screening for safer roads. Help keep communities safe with actionable tools to better protect against drugged driving.

Acusensus

Booth No: 604

Visit the Website: www.acusensus.com

The Acusensus Heads-Up solution can identify phone distracted drivers and seat belt compliance, using high resolution imaging and machine learning algorithms. The Heads-Up solution is suited for both world class data collection and enforcement countermeasures.

Alwaysion Inc

Booth No: 708

Visit the Website: www.aiwaysion.com

AIWaysion develops next-generation Connected Vehicle technology and provide Smart Mobility Solutions using Artificial Intelligence (AI) and Edge Computing technologies for safer and more efficient transportation.

Alliance Highway Safety

Booth No: 101

Visit the Website: www.AllianceHighwaySafety.com

Alliance Highway Safety is an agency specializing in marketing and outreach for state highway safety offices.

Altumint, Inc.

Booth No: 620

Visit the Website: www.altumint.com

Driven by safety and integrity, Altumint offers a resourceful and adaptive partnership to immediately improve public safety. We engineer, manufacture, and support a visual technology system and citation process using artificial intelligence to capture data on people and vehicles who break the law. We add support and resources for law enforcement to monitor speeding in school zones, work zones and other areas of concern, running lights and ignoring school bus arms - anything compromising community safety. Our expert team provides unmatched customer service and is committed to making responsive changes in technology and processes based on customer and partner feedback.

American Association of Motor Vehicle Administrators (AAMVA) Supporter Sponsor

Booth No: 513-515

Visit the Website: www.aamva.org

The American Association of Motor Vehicle Administrators (AAMVA) is a tax-exempt, nonprofit organization developing model programs in motor vehicle administration, law enforcement and highway safety. The association also serves as an information clearinghouse in these areas, and acts as the international spokesman for these interests. Founded in 1933, AAMVA represents the state, provincial, and territorial officials in the United States and Canada who administer and enforce motor vehicle laws. AAMVA's programs encourage uniformity and reciprocity among the states and provinces. The association also serves as a liaison with other levels of government and the private sector. Its development and research activities provide guidelines for more effective public service. AAMVA's membership includes associations, organizations and businesses that share an interest in the association's goals. AAMVA has four regions incorporated under its umbrella.

American Trucking Associations' Share the Road

Booth No: 321

Visit the Website: www.trucking.org/share-road

Share the Road is a highway safety program with million-mile accident free professional truck drivers deliver specific life-saving safety tips to the public, the media, and our public officials through television, radio, the web and in print. The program's goal is to reach as many people as possible and change driving behavior so that we can save lives.

ATSS Foundation

Booth No: 404

Visit the Website: www.foundation.atssa.com

The American Traffic Safety Services Foundation (ATSS Foundation) promotes roadway safety through charitable giving and public awareness programs. Its National Work Zone Memorial, which includes more than 1,600 names, travels to communities across the country to draw attention to work zone dangers by honoring lives lost. The ATSS Foundation also offers work zone educational programs for children and teen drivers. The Foundation provides educational scholarships for dependents of men and women killed in work zones.

BIA, OJS - Indian Highway Safety Program

Booth No: 412

Visit the Website: www.BIA.gov

To reduce the number and severity of traffic crashes in Indian Country by supporting Education, Enforcement, Engineering, as well as Safe Tribal Community Programs.

ChORUS

Booth No: 109

Visit the Website: www.roadsafeseniors.org

ChORUS serves as a centralized, user-friendly, and dynamic source of information pertaining to highway safety for aging drivers, passengers, pedestrians, and cyclists. Built as a comprehensive resource, it covers all three major components of highway safety: safe roadways, safe road users, and safe vehicles.

CMI, Inc.

Lifesafar

Booth No: 505

Visit the Website: www.lifesafar.com

LifeSafer has helped over 1.5 million drivers get back on the road after a drunk driving conviction. With over 30 years of experience leading the industry, we provide accurate and reliable services to help you complete your interlock program. Our devices are the smallest and easiest to use, and our team will walk you through the process, step-by-step.

Medidas Digital Inc.

Booth No: 507

Visit the Website: www.trypscore.com

Medidas Group has one mission; to reduce vehicle collisions and save lives! Our TrypScore technology suite has been designed to create a win-win value proposition for drivers, educators, corporate partners, researchers, and safety-minded organizations. We are changing the narrative through a rewards-based approach not only for drivers when they drive safely but for all our mission-aligned partners by delivering targeted value through better education, positive brand exposure, driver intelligence and anonymous, aggregated driver risk data. We are challenging everyone to commit to safer roads!

National Center for DWI Courts

Booth No: 612

Visit the Website: www.Dwicourts.org

Impaired driving is recognized as one of the biggest threats to public safety in the United States. The National Center for DWI Courts (NCDC) is dedicated to reducing impaired-driving recidivism nationwide by addressing the root problem: addiction. We partner with federal agencies and corporate sponsors to provide cutting-edge training and technical assistance to communities to implement, expand, and improve DWI court programs that provide treatment and accountability based on research-driven best practices. We are dedicated to expanding DWI courts to serve everyone in need and to make our communities safer each and every day. Established in 2007, NCDC is a division of the National Association of Drug Court Professionals, a 501(c)3 non-profit organization based in Alexandria, Virginia.

National Distracted Driving Coalition

Booth No: 506

Visit the Website: www.usnddc.org

The National Distracted Driving Coalition (NDDC) was formed in March 2021 to address distracted driving which is a contributing factor to road deaths and injuries. This road safety issue is a priority concern shared by many organizations across many sectors. A diverse cross-section of entities, representing academia, non-profits, government, advocacy, and industry, including insurance, transportation, automotive and technology, have come together to create a National Action Plan to tackle this important issue.

National Highway Traffic Safety Administration

Booth No: 501-503

Visit the Website: www.nhtsa.gov

Promotional and educational materials that focus on reducing traffic safety fatalities.

National Law Enforcement Officers Memorial Fund, Inc

Booth No: 607

Visit the Website: www.NLEOMF.org

Our partnership with the National Highway Traffic Safety Administration (NHTSA) is a long-standing relationship that is focused on improving the safety of police officers as they perform their duties on the nation's roadways. By conducting in-depth analysis of fatal law enforcement incidents, the National Law Enforcement Officers Memorial Fund (NLEOMF) provides NHTSA and the law enforcement community with vital information on how and where officers are dying as a result of traffic-related incidents. The NLEOMF and NHTSA work together to educate law enforcement officials on the common types of fatal crashes and roadway incidents and offer strategies and guidance on how to mitigate them. This is accomplished by sharing the data and analysis across a wide array of platforms such as conferences, workshops, webinars, and distributed materials.

National Road Safety Foundation

Booth No: 716

Visit the Website: www.nrsf.org

The National Road Safety Foundation, Inc. (NRSF) is a 501 (c)(3) non-profit charitable organization that for nearly 61 years has been dedicated to reducing crashes, deaths and injuries on our nation's roads by promoting safe driving behavior through greater public awareness. NRSF produces documentaries, educational resources and public service campaigns for use in safety, educational and enforcement programs by police, teachers, traffic safety agencies, healthcare professionals, youth advocacy groups and other government and grass-roots agencies. NRSF resources, which are free, deal with distracted driving, speed and aggression, impaired driving, drowsy driving, driver proficiency and pedestrian safety. The Foundation also works with youth advocacy groups and sponsors scholarships to engage teens in promoting safe driving to their peers and in their communities. For information or to download free resources, visit www.nrsf.org

National Safety Council Partner Sponsor

Booth No: 519-521

Visit the Website: www.nsc.org/road

Save lives, from the workplace to anyplace. The National Safety Council is America's leading nonprofit safety advocate. We focus on eliminating the leading causes of preventable injuries and deaths. One of NSC's primary practice areas focuses on safety on the road. Learn more about the NSC Roadway Safety initiatives at www.nsc.org/road. At this exhibit booth, information will be available about programs such as Check To Protect (vehicle recalls), Child Passenger Safety, including the National Child Passenger Safety Board, the National Digital Car Seat Check Form, and Pediatric Vehicular Heatstroke. Come learn more about DriveitHOME (teen driving support for parents), and Our Driving Concern and Drug Impairment Training for Texas Employers (DITTE) programs for Employer Traffic Safety resources in partnership with TX DOT. There will also be information about the Road To Zero Coalition, Defensive Driver Courses, and additional Driver Safety resources.

Nationwide/IIHS/MADD Champion Sponsor/Supporter Sponsor

Booth No: 418-420

Visit the Website: www.nationwide.com

Nationwide is a Fortune 100 company based in Columbus, Ohio and is one of the largest and strongest diversified insurance and financial services organizations in the United States. Nationwide has been protecting people, businesses, and futures for more than 95 years; and has a vested interest and a long history of advocating for safer roadways. Our advocacy is accomplished through partnerships with manufacturing groups and safety organizations like IIHS and MADD. Nationwide has long been on the cutting edge of auto safety. Along with IIHS in the 50s and 60s we were an early advocate on seat belt usage and promoted the adoption of airbags. More recently we've focused our efforts on curbing impaired and distracted driving through the enactment and enforcement of laws, heightened public awareness, and the development of technology to provide drivers tailored coaching and feedback through our telematics-based SmartRide program.

Northwestern TTAP Center

Booth No: 306

Visit the Website: NWTTAP.wordpress.com

The Northwestern Tribal Technical Assistance Program (NW TTAP) Center is a federally funded program focused on building the capacity of tribal transportation programs through training, technical assistance, and technology transfer activities. The NW TTAP Center works with the tribes of the NW BIA Region 6, which encompasses WA, ID, OR, and portions of UT, MT, and AK. The NW TTAP Center is located at the University of Washington (UW) in collaboration with Eastern Washington University (EWU) and is supported by the FHWA Center for Local Aid Support. TTAP Program Vision: Through mutual respect and understanding, enhance the quality of life in Tribal communities by building capacity for Tribes to administer and manage their transportation programs and systems. TTAP Center Mission: Serve as a go-to local resource for Tribal transportation training, technical assistance, and technology transfer needs and opportunities to effectively carry out the TTAP Vision.

NTSB

Booth No: 508

Visit the Website: www.nts.gov

The NTSB investigates aviation, marine, and rail accidents, highway crashes, and hazardous pipeline events and issues safety recommendations to save lives.

NUNA Baby

Booth No: 219-221

Visit the Website: www.nunababy.com/usa/car-seats

From facing direction to installation instructions and the best location in the vehicle - there's a lot to think about when it comes to safely installing and using your Nuna car seat. To help navigate through all of your family's journeys, our experts have carefully curated a hub of car seat information so that you can focus on the road ahead - knowing what's riding behind you is safe and sound. Nuna's luxurious car seats are engineered for growth keeping baby to 'tween safe at every stage. Combining safety with high design, Nuna's car seats are mindfully manufactured with clean fabrics and brilliant innovation for guess-free installations.

Responsibility.org

Booth No: 201-203

Visit the Website: www.responsibility.org

The Foundation for Advancing Alcohol Responsibility (Responsibility.org) leads the fight to eliminate drunk driving and underage drinking and promotes responsible decision-making regarding beverage alcohol. Supported by 11 of America's distillers who lead with a strong commitment to responsibility, Responsibility.org's distinguished National Advisory Board and our partners at the national and local level help us reach a broad audience, guiding a lifetime of conversations about alcohol responsibility across all 50 U.S. states and in our nation's capital.

Ride N Remind - Back Seat Reminder System

Booth No: 302

Visit the Website: www.ridenremind.com

A highly effective solution to prevent children from being forgotten in the back seat of a vehicle.

SADD, Inc.

Booth No: 714

Visit the Website: www.sadd.org

SADD is the nation's premier student health and safety organization. With thousands of chapters across the US and abroad, SADD works to empower teens, engage adult allies, mobilize communities, and change lives. SADD uses Countermeasures that Work, combined with our evidence-based and evidence informed resources in our peer-to-peer network to make our roadways safety. Stop by to see how SADD can empower your community!

Safe Kids Worldwide Partner Sponsor

Booth No: 301-303

Visit the Website: www.safekids.org

Safe Kids Worldwide is a nonprofit organization working to protect kids from preventable injuries, the number one cause of death for children in the United States. We work with an extensive network of more than 400 coalitions in the U.S. and with partners in 30 countries to keep kids safe at home, on the road, and at play. We partner with General Motors to protect kids in and around cars through the Safe Kids Buckle Up program (SKBU). Since its inception in 1997, SKBU has grown into one of the most comprehensive CPS programs in the world. Thanks to the support of GM, we have reached more than 29 million families and distributed more than 784,000 car seats to families in need. Our efforts also include programs in other critical areas such as bike safety, pedestrian safety, and rail safety. These life-saving programs provide in-person and online educational resources to help reach all families, no matter where they live.

Safe Ride News Publications

Booth No: 509

Visit the Website: www.saferidenews.com

The Dawn Project Partner Sponsor

Booth No: 621

Visit the Website: www.dawnproject.com

Making Computers Safe for Humanity

The National Judicial College - FMCSA

Booth No: 821

Visit the Website: www.cdresources.org/

The nation's oldest and largest college for judges, The National Judicial College, in collaboration The Federal Motor Carrier Safety Administration (FMCSA) is working to improve highway traffic safety by educating judges and other court officials about their role in upholding the law set forth in national Commercial Driver's License regulations. An agency of the U.S. Department of Transportation, the Federal Motor Carrier Safety Administration regulates America's trucking industry. Its primary mission is to reduce crashes, injuries and fatalities involving large trucks and buses. The NJC has been educating judges in every state about highway safety regulations for more than 20 years. Each year hundreds of judges attend the NJC's in-person courses or participate in state-specific or national webinars developed with the support of FMCSA.

The National Judicial College - NHTSA

Booth No: 819

Visit the Website: www.judges.org

The National Judicial College (NJC) and the National Highway Traffic Safety Administration (NHTSA) collaboratively are dedicated to educate judges on issues related to impaired driving. NHTSA provides funding to develop a coursework certificate program customized to judges from non-lawyer backgrounds and new courses for military and tribal adjudicators. The courses feature the latest research in areas such as toxicology, scientific evidence, alcohol and drug impairment detection and screening, the use of ignition interlock, drug and DUI courts, incentives and sanctions, and supervision and sentencing practices. NHTSA has partnered with the NJC on traffic-related programs for judges for more than 15 years.

ThinkFast

Booth No: 815-817

Visit the Website: www.thinkfastinteractive.com

The ThinkFast Interactive (TFI) program serves as an evidence-informed prevention intervention program that is readily available, affordable, and comes with statistically significant empirical results demonstrating that the program is an innovative method for delivering educational and safety/awareness messaging to middle and high school students.

TxDOT employs over 12,000 employees throughout Texas in various technical, engineering and business support positions.

UPPAbaby

Booth No: 112

Visit the Website: www.uppababy.com

Inspired by Parents. Crafted by Experts. We've integrated smart features and innovative designs to make all of our products versatile, adaptable, and most importantly easy to use for all parents - because we are parents! UPPAbaby products include strollers, car seats, play yards and accessories.

Virginia Tech Transportation Institute

Booth No: 300

Visit the Website: www.vtti.vt.edu

VTTI is dedicated to advancing safety through innovation. The institute collaborates with industry leaders and government agencies to develop, test, and deploy advanced vehicle technologies. A leader in conducting large-scale naturalistic driving studies, test-track evaluations, and on-road studies, VTTI has a proven history of providing real-world performance data for impactful analytics, simulations, and analyses.

Virtual Driver Interactive

Booth No: 309

Visit the Website: www.driverinteractive.com

We are a technology company utilizing simulation and virtual reality for driver training and distracted driving awareness. Based in California, VDI offers comprehensive training programs for novice drivers, corporate fleets, boating safety and distracted driving awareness. One Simple Decision is an immersive distracted driving program where students experience the consequences of distracted and impaired driving through a hands-on, immersive experience, which includes virtual interactions with real law officers, judges, ER personnel and doctors. One Simple Decision also has the capability of tracking traffic violations real-time to demonstrate the immediate effect of driving distracted or impaired.

Washington State Patrol - MIDU

Booth No: 801-809

Visit the Website: www.wsp.wa.gov

The Mobile Impaired Driving Unit (MIDU) is a self-contained 36-foot motor home that has been retrofitted as a mobile DUI processing center and incident command post. Inside the MIDU is a full 'DUI investigation center.' Drug Recognition Experts and phlebotomists are on board and can take legal blood draws. The MIDU is equipped with breath testing instruments, temporary holding cells, computer workstations, an incident command computer terminal, a dispatcher console with wireless access to WSP dispatch centers, and a microwave downlink tower for real-time broadcasts from WSP aircraft. It is described as a full-service police station on wheels. When requested, the MIDU travels across the state in support of law enforcement efforts during DUI emphasis patrols or to emergency incidents such as wildland fires or other natural disasters. It has been in operation since 2006.

Westat & NDCF Partner Sponsor

Booth No: 517

Visit the Website: www.westat.com

Westat's work makes travel safer and more efficient. We help find and address transportation challenges through studies of vehicle technology and safety, travel behavior, and traffic operations systems. We explore issues related to roadway users, vehicle automation, connectivity, travel patterns, and more. Westat's research in restraint use, speeding, and other driver behaviors is helping to find ways to reduce motor vehicle crashes. We are a proud partner of the National Digital Car Seat Check Form, a free resource available to all certified Child Passenger Safety Technicians. Available on paper or an electronic platform, this program walks a technician through a structured car seat check, streamlining data collection so that important information is captured along the way. CPSTs and program managers can easily download their seat check data in a format that reduces reporting burdens, allows for monitoring trends, and tracking car seat distributions.

WSDOT Memorial Foundation

Booth No: 712

Visit the Website: www.wsdotmf.org

Nonprofit charity providing assistance to survivors of fallen highway workers and others in need of assistance.
